### Felix Wargin Shot by J. Mateski

#### WHILE DRESSING FOR BALL

#### Coroner's Jury Views The Scene of the Killing This Afternoon

The most unfortunate and appalling accident occurred last evening about 7:30 at the home of John Mateski, 702 Kane street, when he accidentally shot his comrade, Felix Wargin, in the abdomen, fatally wounding him.

The two young men who are about 19 years of age had arranged to go to the mask ball given by the Ramblers in the Union hall last evening. Felix, who was shot, resides about two doors north of the Mateski residence to which he went to don his masquerade costume, which was of the western order, with belt and two pistols.

Wargin and Mateski were in the latter's room where they were changing their attire. Felix was sitting on the bed and John on a chair near by, and while his comrade was making the change John was brandishing the revolvers, with some of the western gestures, back and forth in front of Felix, and just as it was passing he pulled the trigger, and the revolver which was supposed to have been unloaded went off, striking Felix in the abdomen.

The young man did not lose consciousness, but seemed to realize what his comrade had done and said: "I'm burning, give me some water."

This was given him after which he sank back on the bed. They then hurried for a physician, Dr. Callahan being the first to arrive. He stated, soon after a hurried examination had been made, that it was impossible for the boy to live. The bullet had pierced the lower part of the stomach, plunged into the liver, and cut an artery, which caused a large loss of blood.

Rev. Ambrose Murphy arrived about this time also, and was with the young man from then until he passed away, accompanying him in the ambulance to the St. Francis hospital where he died about three and one half hours after the accident had occurred.

Drs. Gunderson and Callahan probed for the bullet, but were unable to locate it.

The young man was conscious all the time up to the time of the operation and while at the Mateski residence he knew everyone who came into his room.

His mother is nearly prostrated with grief. The young man was always of a quiet and good natured disposition and the costume which he was about to don did not contrast

Charging that they were overcharged several dollars members of the south side order of the Maccabees this morning preferred charges against the conductor of an owl car which brought them to the south side after midnight last night.

There were 45 people in the party which boarded the car and leaders of the crowd claim they had an understanding with the manager of the street railway company that a car

was to wait for them at Rose and St. Cloud streets. The Maccabees were in a hall a short distance away, while the Ramblers baseball team dance was in progress in Union hall on this corner. The car was waiting for parties from both halls. The Maccabees claim they were taxed six dollars for the ride to Fourth and Main streets on the south side, which amounted to about 35 cents per man. The Maccabees refuse to pay part of the charge.

### LA CROSSE COUNTY MAN VISITS HIS OLD HOME

Mr. Will Stilson of Thornton, Washington, is visiting friends in the city. Mr. Stilson is an old La Crosse county man going to Washington about eighteen years ago to seek a fortune in the land of the setting sun. To say that he has succeeded well is gratifying to those who knew Mr. Stilson as a young Wisconsin man. He has now one of the many large wheat ranches in the state of Washington but still looks back to La Crosse county as a bright spot, filled with many pleasant recollections. He will leave for his home in Washington in a few days.

"One must know one's own measure and keep it in view." Just to specify. YOU know how big your store is—you know its measure: Does anyone in the city think it a smaller store than it is? The chances are that if anyone does it is because you have been careless about keeping your store's measure "in view."

## PLAYED UPON THE VANITY OF WEST POINT OFFICER

### WANT LENROOT

That the visit of Assemblymen Dahl and Ekern to this city this week was of deeper significance than appeared on the surface, and that the real object of their trip to La Crosse was to attempt to line up this district for Lenroot for governor is a matter of common gossip in local administration circles.

Indications on the surface are that the two versatile and able managers of the northern Wisconsin candidate's campaign had a rather disappointing visit here. While the matter has not been authoritatively announced it has been generally understood for some time past that Governor Davidson was the favorite candidate here, and prospects of a majority of the administration leaders switching their support to Lenroot do not appear very encouraging just at this time. The fact that Davidson comes from this part of Wisconsin is a big factor in his favor, while there are other considerations which prompt the rank and file of administration forces here to line up even at this early date for the Soldier's Grove man.

### Secret of Gaynor- Green Graft

The said Green and Gaynor puffed up Captain Carter, a young officer fresh from West Point until he believed he was equalled in ability by none in the country.

He listened to their schemes and borrowed their money, until owned by them, body and soul.

The two secured an enormous appropriation for this harbor so as to have bigger sums from which to pilfer.

They were able to do so by the aid of their tool, Carter, said the attorneys. They got the contract by Carter's unfair aid.

## ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. With but dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## OUR SENATE DOES NOT SEEM INCLINED TO PUNISH BIGELOW.

Washington, Jan. 20.—Poultney Bigelow's defiance of the senate committee on interoceanic canals in refusing to divulge the sources of certain information he is alleged to have had to go to the isthmus of Panama to engage in the construction of the canal because of physical conditions, probably will go unpunished. This was made apparent by the postponement of consideration of his recalcitrancy until after he has gone on with his testimony, which will be Tuesday probably. The committee had set Monday as the date for his examination, but Bigelow has asked that it go over until Tuesday.

### Senator Says There Are Others.

The committee held an executive session of two hours. Hopkins offered a resolution certifying Bigelow's contumacy to the vice president for action in the courts, and asked that it be adopted. Several Democratic senators opposed this course, and Senator Simmons addressed the committee at length. He declared that it was an extraordinary penalty that was proposed and contrary to common law. He suggested that the courts might refuse to act on the certification, which he asserted would prove most embarrassing. Concerning Bigelow's article the senator said that there had been many other articles written against the canal management by other writers, equally bitter, who have not been called into disrepute, and that this one appeared to have been singled out by the president for a denunciatory reply.

### Much News Is Confidential.

The course of the committee, if it should proceed against Bigelow, said the senator, would be to intimate witnesses and would be bad policy so early in the canal investigation. He said that much of the news printed by the newspaper men employed at the capital is obtained from confidential sources, and that if the committee is to declare that these confidences are to be violated it would at once array the press of the country against the committee. He closed with the statement that he would never sign a resolution to certify the case to the courts, and he was joined in this by Gorman and Tallafiero. Hopkins finally withdrew his resolution.

### JOINT STATEHOOD HEARING

Senator Clark on the Value of a Copper Mine—O'Neil Creates Uproar.  
Washington, Jan. 20.—Senator Clark, of Montana, appeared before the house committee on territories

made a statement concerning the tax assessment on the United Verde Copper mine at Jerome, A. T., which has been mentioned frequently in the joint statehood hearings as one of the great mining properties alleged to be escaping just taxation under the present territorial organization.

Clark denied that he had even received or rejected an offer of \$25,000,000 for the mine, or any other sum. He said the mine paid taxes on an appraisal of \$1,200,000; that newspaper statements of the value of the mine, some putting it at \$100,000,000, were mere guesses, as to the amount of ore yet in the mine. "I defy any one to accurately estimate the value of a mine," said Senator Clark. "The eye cannot reach beyond the ground and ore which seems to be in inexhaustible quantities may play out at any time."

Then the daily row was had. In an impassioned speech Eugene O'Neil declared that the committee was acting as judge, jury and prosecuting attorney in advocating the joint statehood bill, and characterized as a crime the way the hearing was conducted. Democratic members of the committee agreed with O'Neil, and encouraged him in continuing a speech which threw the committee in an uproar.

Delegate to Congress Andrews said he thought that if a vote was taken in New Mexico on joint statehood it would win, but that would result from a desire for half a loaf if that was all that could be had. A. J. Doran, of Arizona, referring to the alleged inequality of taxation in favor of rich corporations, said that if it were true it would be no easier to tax those corporations justly under joint statehood than it is now.

## CHICAGO IS TRYING TO MAKE A HIT WITH REPRESENTATIVES OF CHINA.

Chicago, Jan. 20.—Picturesque in their flowing robes, their excellencies, Tai Hung Chi and Tuan Fang, commissioners of his imperial Chinese majesty, as they are officially styled, arrived in Chicago by special train from San Francisco and, after receiving formal greetings on the part of Mayor Dunne, President Brundage, of the county board, and a delegation of business men, were lodged in suites of rooms at the Auditorium Annex. The arrival of the visitors made an interesting sight at the Chicago and Northwestern station, where a large crowd was attracted.

### Local Chinese "Kotow."

Hip Lung, the local Chinese "mandarin," and a score of compatriots, attired in gorgeous raiment, formed a line at the side of the train and "kotowed" reverently to the commissioners and the members of their party of sixty. The entire party entered carriages and were driven to the hotel. The party includes Professor Jeremiah W. Jenks, of Cornell university, who was delegated by President Roosevelt to do the honors for the country after the landing at San Francisco, Jan. 13. In this task Professor Jenks was assisted by Captain Lopez, United States army, and Lieutenant White, of the United States marine corps.

### Mayor Arm-in-Arm with Ah Sin.

Mayor Dunne gave his arm to Tai Hung Chi and Julius Rosenwald escorted Tuan Fang to carriages at the

station. President Brundage took charge of the first secretary, E. F. Cherry, Henry P. Chandler, County Commissioner Chartray, E. B. Butler and John M. Glenn and others of the reception committee looked after others. An hour was passed at the hotel in quartering the visitors and then local army officers called to pay their respects. In the meantime the lesser lights in the crowd had come downstairs and poked around here and there, familiarizing themselves with the hotel surroundings.

### Object of the Visit.

The object of the commissioners is to study the political institutions of the United States and to glean all available information respecting economic, social, industrial and educational conditions. The Chinese emperor is hoping to give the people of the country a constitutional government within the course of a few years, modeled somewhat after that of Japan.

## RECEIVERSHIP CURE FOR REVOLUTION

San Domingo, Jan. 20.—The Dominican government in receiving the surrender of Monte Cristi permitted the revolutionary governor, General Arias, to depart for Porto Rico, and granted general amnesty to the other revolutionists. The collapse of the revolution within fifteen days from the commencement of hostilities was due to lack of funds and the inability of the revolutionists to control custom houses as bases for their operations.

The customs receivership now here interfered with the complete neutrality of the United States navy and the tenders of the good offices of the commanders to prevent unnecessary waste of life resulted in a friendly sentiment among all concerned. The government and the public, appreciating the good effect of the modus vivendi, are more favorable to the proposed treaty with the United States than at any time since it was proposed.

Bring the ladies and children.

"The Black Crook" unlike any other spectacle, is a drama of great force and interest, and while its spectacular adjuncts are the most elaborate ever conceived, the spectacle is a legitimate part of the drama, and is not in any sense a vaudeville interlude. In the grand revival of "The Black Crook," at La Crosse theatre on Monday, Jan. 22, the original "Black Crook" will be produced. The production will be historically correct, with brilliant ballets, gorgeous transformations, diabolic phantasmas—each and all part and parcel of the drama.

With a clever plot, brilliant dialogue complications that are screamingly funny and a company capable of extracting the last grain of humor from such splendid material "Rudolph and Adolph" comes to the La Crosse theatre on Tuesday, Jan. 23d. This attraction is under the management of Broadhurst and Currie who produced "Why Smith Left Home," "The Wrong Mr. Wright," "What Happened to Jones," and many other plays by Mr. Broadhurst, and this alone should guarantee its excellence.

### Concerning Eva Tanguay.

Miss Eva Tanguay, who has been meeting with all kinds of success this season and last in her new musical comedy, "The Sambo Girl," is coming to the La Crosse theatre next Thursday, Feb. 1st, Miss Tanguay is the youngest star comedienne now before the public, and many erudite dramatic reviewers are predicting a brilliant stage career for the girl, who they declare has no equal in originality, vivacity and spontaneity or humor on the American stage today.

## WEATHER RETARDS BUSINESS SAYS R. C. DUN

New York, Jan. 20.—R. C. Dun & Co.'s Weekly Review of Trade says: Trade reports are more irregular, chiefly because of the vagaries of the weather. At some points results are all that could be desired, the new year starting with much heavier transactions than in 1905, but high temperatures and excessive rains in other localities retard retail distribution of winter goods, and it is becoming necessary to reduce stocks by clearance sales. Nothing disturbs the vigorous preparations for spring business, which promises to make a most gratifying exhibit.

Open weather is facilitating outdoor work, building operations progressing at an unprecedented pace for the season, and the Construction News reports permits issued in 1905 to a value of \$528,186,412, which is 40 per cent. in excess of the preceding year. More advances in wages are announced, and an agreement as to coal mining is more probable, but some friction is noted in the building trades.

Failures for the week number 286 in the United States, against 335 last year, and 37 in Canada, compared with 24 a year ago.

By ALICE W. WHEELER

The week has been largely devoted to musical entertainments and banquets. Tuesday evening Dana's Third Regiment band gave the third of the series of concerts at the theatre. Miss Russell, the soloist was greeted with hearty applause and responded to the encores in her usual graceful and charming manner. W. N. West played a violin obligato and George Garrett accompanied her on the piano. The same evening the second rehearsal of the Choral club was held. There was a large number of new members enrolled Thursday evening Prof. Packman gave an organ recital at Christ church. The soloists were Alma Josly, Master Harold Evans, the boy soprano of St. Paul's church of Milwaukee, and Carl Rudolph. The Franklin club gave its tenth annual banquet at the North Presbyterian church Thursday evening. It was the two hundredth anniversary of the birth of Benjamin Franklin. It was a delightful affair and there was a large crowd present to enjoy the festivities.

**AFTERNOON RECEPTION.**  
The elegant home of Mr. Lucius Colman was the scene of a delightful affair Friday afternoon when Mrs. Colman was hostess at a delightful "at home." From 3 o'clock till 6, the receiving hours, there was constant throng of guests arriving and departing. The rooms were lavishly decorated with beautiful flowers and vines while the strains of Dana's orchestra gave life and spirit

to the occasion. The reception room was in pink and green. La France pink roses and ferns were used without stint. Festoons of southern smilax wreathed the archways and drooped from chandeliers. Receiving with the hostess was her mother, Mrs. Samuel Wykoff who was gowning in a pretty grey and white silk with a garniture of lace. Mrs. Colman wore a sea green pompadour silk scattered over with tiny pink roses. The bodice was fashioned with a transparent yoke of lace over which she wore a jeweled necklace. After a few words of greeting with the hostess and her mother the guests were invited into the dining room which was brilliant in red. At each end of the table were two tall cut glass colonial candlesticks with red tapers. In the center was a large cluster of red carnation. The light from above was covered with red shades and bunches of southern smilax. The ladies serving in this room were Mesdames T. H. Spence, John Brindley, Cunningham and George Burton. Cakes and ices were served in the library which was in green yellow, jonquils and ferns being used effectively. Mesdames E. L. Colman, F. H. Hankerson and Estella Sawyer assisted by the Misses Anna Colman, Gertrude Smith and Mary Anderson served. Mrs. N. D. Sawyer has a letter box that adorned the library at Ashiestiel, and Mrs. Mauer has the poet's tea pot, while Miss Alice Wheeler possesses the identical inkstand in which

How Pretty Miss  
Powell Was Re-

by Pe-ru-na.

Miss Lillian Powell, Aurora, Ind., writes:  
"Last spring I caught a severe cold from getting my feet wet and being out in the rain, and in a day I had a most miserable cold, but I neglected it, thinking it would soon leave me. But it hung to me for two weeks, when I felt something must be done, as my condition was serious. I had heard so much about Peruna and in its praise that I bought a bottle and began taking it regularly. I was gratified to find that in a week the cold and cough was broken up, and three weeks' treatment completely restored my usual good health."—Lillian Powell.

the great Scott dipped his pen when producing the greatest of his works. The stand is of bronze, uniquely moulded with a screaming eagle hovering before the wells.  
Miss McFarland inherited these priceless trinkets from her grandfather, who was gardener on the poet's estates prior to his knighthood when he removed to Abbotsford. They came to her through Clark, son of the gardener who possessed them during his Canadian residence.

### LINEN SHOWER.

Friday evening the choir of Christ church gave a linen shower for Miss Emma Lees in the guild room. Mrs. Henry Stevens poured coffee from a table prettily decorated with flowers and red hearts. Miss Lees was the recipient of a number of handsome and useful articles in linen.  
This evening Mrs. C. W. Noble will give a cinch party in honor of Miss Lees. There will be about twenty guests.

### DANCING PARTY.

The Friday night dancing class of the de Ranitz dancing academy gave a ghost dance at their hall last Friday evening. All wore white costumes and white domino masks and the room being darkened made a very gloomy appearance. The hall also was decorated for the occasion. The seats, doors and windows were draped with white sheets. The party, unmasked about 8:30 after an hour spent with the ghosts. Dancing continued until about 11:30 when light refreshments were served, after which dancing continued till an early hour.

### How Consumption Develops.

Nine cases of consumption out of ten occur in this way:

A person catches cold. The cold is not properly cured, and another cold is caught.

This cold is dilly-dallied with, either by no treatment whatever or some treatment that is ineffectual, and the cold continues.

Then another cold is caught and a cough develops. Cough syrups are resorted to, but they give only temporary relief.

By and by the patient gets tired of taking medicines and cough syrups and gives up in despair.

The cold continues to develop and the cough grows worse.

Then the doctor is called in, only to discover that the patient is in the first stages of consumption.

It was just in this way that Miss Powell, of Aurora, Ind., became sick. She caught a cold, and not considering it serious, neglected it, thinking as many others do, that it would "wear off."

However, it clung to her tenaciously, and in two weeks she found her health in a serious condition.

Fortunately, Peruna had been brought to her notice, and she took a course of this remedy before it was too late.

In a week the cough and cold were broken, and a three weeks' treatment completely restored her to health.

This is what Peruna is doing all the while. Not a day, and probably not an hour passes in which some one does not have a similar experience with Peruna.

Cure the Slight Colds and Avoid Consumption.

The first step toward consumption is a cold. The next step is a failure to cure it promptly. The third step is the development of catarrh, which gradually becomes chronic. The fourth step, the catarrh begins to spread from the head to the throat, then to the bronchial tubes, and finally into the lungs. It is then consumption in the first stage.

At any time during the progress of catarrh, from the first onset of the cold to its final settlement in the lungs, Peruna can be relied upon to stop the disease. If you have taken a cold, buy Peruna without delay. One bottle in the beginning will do more good than a half dozen bottles after the catarrh has fastened itself on the lungs.

Thousands of Testimonials.  
We have on file thousands of testimonials from people who have been cured of catarrh of the lungs by Peruna. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

### STOP IT.

A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. Sold by J. A. Erhart & Son.

## ALFRED WILEY MAY OPEN STUDIO HERE

Mr. Alfred Wiley, conductor of the La Crosse Choral club, has been urged to open a studio for vocal lessons. As Mr. Wiley's time is limited to one day in La Crosse, it will be impossible for him to receive more than a very limited number of pupils.

The Tribune is authorized to state that those desirous of consulting him regarding instruction can interview him on next Tuesday, Jan. 23d, in the afternoon, at the Hotel Stoddard.

THE SIDEWALK SNOW PLOW.

This is a land of snow and ice, and snow and ice are problems we must deal with as regularly as we must deal with the coal bill and the sourkraut cask. Particularly in cities does the matter become one of serious interest.

This winter there has been more than ordinary reason to become concerned about the visitation of the "beautiful" over which poets gush and through which pedestrians slush. Extraordinary weather conditions brought about a state of affairs under foot that made walking in the streets perilous. There was a thaw, and snow; and when the walks were cleaned at any old time when people found time to clean them, they were not cleaned at all. In the center of every sidewalk in the city there rose a slippery bump that sent people spinning and endangered life and limb. It is of no use for the people to blame the city or for the city to blame the people; columns of recriminations could not compensate Henry Waters for the fall that might have cost him his life, nor can it make good to hundreds of others the skinned shins and racked joints which they acquired. Who is to blame is of no importance; how to avoid the condition is of real concern.

The Tribune suggests to the city administration the advisability of making careful inquiry as to the practicability of sidewalk snow plows. It is understood that they are being quite generally adopted by progressive cities, and no city needs them more than does La Crosse. By putting them out promptly the walks could be kept in perfect condition at all times. The board of public works has a surfeit of horses, and here is a way in which the nags could earn their salt. It will cost nothing to inquire. The expense is said to be trivial, and the advantages offered are great.

THE UTILITY OF THE AUTOMOBILE.

La Crosse people have come to recognize the automobile as a thing that has come to stay. At first it was an intruder, a thing with no use and no rights, whose owner was an outlaw and a rascal.

That is far from being the case. It is the most valuable and practical of the modern inventions for locomotion. From being the toy of the idle rich, it has come to be the vehicle of the businessman. In this city merchants and manufacturers are using it in everyday commercial and industrial life, and they would not miss the telephone more.

Among the young businessmen to adopt it here during the past year are Robert Hyde, Henry Boehm, G. Van Steenwyk and Paul W. Mahoney. They do not buy auto cars as a luxury, but as a business necessity. It is probable that 1906 will find a new list of converts to the real value of the cars.

The coming of the Auto Rapid Transit Co. is still another evidence that there is popular recognition of the commercial value of the machine. The "auto" has come to stay, and it will stay longer than the horse.

EVENING ORGAN ENDORSES US.

We are delighted to observe that "The Tattooed Organ" published by "The Cow-puncher" and "The Shitepoke" is endorsed by the esteemed Leader-Press, which thus approves a plan that was first suggested by The Tribune more than a year ago.

"The decision unanimously reached, to merge the two promoting La Crosse organizations, the Board of Trade absorbing the newer Progressive association but the latter contributing so much to the board in membership and vitality as to make it practically a new institution, should be fraught with important results to La Crosse. Everyone now recognizes that the division of energies and resources necessitated by the two associations working along the same lines and looking to the same business public for support was a mistake and that if everything possible is to be accomplished for La Crosse all loyal La Crosse citizens must get together."

AS TO A DISTINGUISHED SERVICE.

If it be true—and it likely is true—that little Garfield whose commission to "investigate" the packers resulted in the administration of a coat of whitewash which looked as black as dirt after its exposure by the able journalist and economist, Charles Edward Russell, at that time committed the United States government to a promise not to prosecute the Trust for violations of the laws of this land by means of which wrongs they

A Poem for Today

TROPIC MOONLIGHT

By Joaquin Miller

CINCINNATI HEINE JOAQUIN MILLER has long been known by the American public as a poet and journalist. He was born in Indiana in 1841 and now lives in Oakland, Cal. Mr. Miller has had a varied career as a miner, express messenger, editor, lawyer, judge and writer. His life has been passed in Oregon, California, London, Washington and again in California. Mr. Miller has published many volumes of prose and verse and a few plays.

HOW soft the moonlight of my south!  
How sweet the south in soft moonlight!  
I want to kiss her warm, sweet mouth  
As she lies sleeping here tonight.

How still! I do not hear a mouse.  
I see some bursting buds appear;  
I hear God in his garden—bear  
Him trim some flowers for his house.

I hear some singing stars; the mouth  
Of my vast river sings and sings,  
And pipes on reeds of pleasant things—  
Of splendid promise of my south:

My great south-woman, soon to rise  
And tiptoe up and loose her hair;  
Tiptoe and take from out the skies  
God's stars and glorious moon to wear!

have been and are pillaging the people, there should be found, some satisfactory way of rewarding the "diplomat" for his services.

The attorney for the packers has the effrontery to stand up in open court with no other defense to the alleged thievery than this promise of a puppet to screen his country's enemies from punishment. Lawyer Mason actually defies the government to break this "promise." Garfield, nor Roosevelt, had any authority to make such a promise, and the promise is as null and void as if never uttered. It now becomes of as much importance to convict and punish those who attempted thus to screen the big rascals as to apprehend and chastize the thieves themselves. Garfield should get all that any ordinary scalawag has coming, if he added to his impudence in uttering his whitewash report the enormity, no matter how authorized, of pledging immunity to these commercial filibusterers.

HIGH CHAIR PHILOSOPHY

The small boy has his troubles on a crowded street car, as well as the older "children." Mamma crowds him into the seat beside her, and asks him to sit there and be quiet.

He wriggles and fusses and declares he does not "want to."

"But why not, Ted?"

"Oh, mamma, I am so tight!"

Non-committal.

A good lesson for the weary mamma is contained in the final but forbearing answer of one little boy to his persistent sister. (And by the way, I do not wonder that "The women rule" if they retain one half the persistency that all little girls seem to possess.)

These little people were having trouble over which one should be privileged to sleep with their beloved nurse. Little brother had been favored because of his illness, but sister thought he was better, and that his excuse was getting threadbare.

So this morning, after being importuned for about the fortieth time, with no satisfying result, brother finally answered, "I'm not talking!"

A kindergarten boy whose mamma visited Yellow Stone Park, was listening to a Thanksgiving story.

Miss Schurman was explaining to the little tots as best she could what an ocean was, so large they could not bridge it over. How the Pilgrims must come all the way in a boat—so salty they could not even get a drink of water; but it was nice to bathe in.

"Yes—Miss Emma, I know," interrupted the boy, "my mamma bathed in the ocean this summer, when she was in Yellow Stone Park."

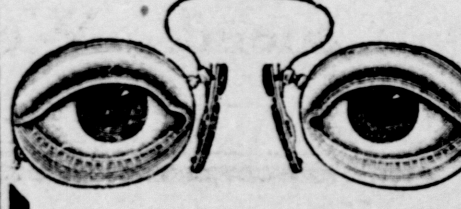

Truly Understandable.

Little Miss Gretchen, who likes to be in the pantry, when mamma makes a cake; one day discovered mamma when her frosting was too soft and was running off from the cake at an alarming rate. "Oh mamma," called the excited Gretchen, "give me some spill."

At another time, this same little miss wandered into the pantry in search of a lunch, and seeing nothing to eat, she very dolefully remarked, "The eat-it's a-l-l g-o-o-n-e!"

SCHOOL FOR NURSES.

The new residence for nurses at the City & County Hospital is practically completed.

It is undoubtedly the most perfectly appointed and equipped building of its kind in the west.

Its completion enables the authorities to extend the training facilities of the hospital to a larger number of pupils than it has heretofore been able to accommodate.

It is the largest general hospital in the northwest, and if only because of its diversified service, caring for both public and pay patients, it affords unusual attractions and efficiency for the education of trained nurses.

Applications for further information should be addressed to Arthur B. Ancker, M. D., Superintendent City & County Hospital, St. Paul, Minn.

MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks.

Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

To the Manhood of La Crosse Men

For months THE TRIBUNE has been conducting a campaign to promote the support of La Crosse manufacturers by urging all loyal citizens to buy goods made in La Crosse wherever and whenever they are to be had on even terms with goods shipped here from foreign factories. It is an unfortunate fact that all of us are in the habit of neglecting this important duty. We do it because we are thoughtless; every man of us would buy a La Crosse article that is as good as a foreign-made article sold at the same prices, IF WE ONLY THOUGHT. The Tribune proposes to make every man in La Crosse THINK.

Why We Should Always Think

If La Crosse has a great future, it is as a MANUFACTURING CENTER. The sawmills and the Wisconsin pine forests made La Crosse. But the pine forests are gone, and the sawmills are gone, and most of the lumbermen are gone. Those who remain have wealth accumulated in a lifetime of industry, and they want to invest it. They would prefer to invest it in La Crosse, but they will not do so extensively unless they recognize a purpose on the part of the people of La Crosse to support the establishments that are started here. Neither will the millions of outside capital seeking investment come here without the encouragement of HOME SUPPORT. In short, La Crosse cannot be anything great except a manufacturing center, and it cannot become a manufacturing center unless its people invite investment in factories by supporting their factories.

It Is Up to You

Do YOU live in La Crosse? Do YOU expect to CONTINUE to live in La Crosse? If you do, you are vitally interested in everything that will build up La Crosse. Nothing will build this city up as will home patronage of home goods. The Tribune has begun a crusade which it believes will within one year increase the home market for home-made goods FIFTY PER CENT. That is a lot to say. We say it because we believe in YOU. We believe that once YOU become impressed with the importance of doing so, you will DEMAND home-manufactured goods. Who are YOU?

Are YOU a capitalist? An investor? If so, YOU know that a popular purpose to buy home-made goods means success to La Crosse factories whose successes MUST radiate success to every man who owns a dollar's worth of property here, or is engaged in business here, or earns salary or wages here.

Are YOU a merchant? If so you know that support of home goods means more factories, more employees, more patrons of the retail stores, more sales, more profits, more prosperity. It means enhanced values of your real estate; it means a bigger bank account and an expansion of your business.

Are YOU a salary or wage earner. If so you know that home buying of home goods means more employment, higher average wages, increased in value of your home if you own one, greater general prosperity in which you are a stockholder.

What Can You Do?

You can make up your mind to do something, and DO it. We ask YOU to fill out and sign the pledge that accompanies this article, and mail it to The Tribune. We guarantee you that this will HELP. "Every little bit helps."

Think what it would mean were 1,000 men of La Crosse to sign this pledge, and KEEP IT! WE KNOW that at least 5,000 La Crosse men will sign it and keep it. It is easy enough, and we know that YOU will do this little bit for La Crosse. WAIT A MINUTE! This means YOU. And NOW is the time.

Get your friends to sign this pledge also. See to it that your influence is exerted in a good cause. Write a letter telling what you think of the work, and suggest to us new ideas in carrying it out. Address all letters and pledges to

City Builders' Pledge

I hereby pledge my support to the movement for the support of HOME factories. I will buy La Crosse made goods wherever they compete in quality and price with foreign products; I will buy of home retailers in preference to foreign mail order or department houses. I will give preference to home jobbing houses; I will endeavor to induce my neighbors and friends to do the same.

## THE PEOPLE ARE BUYING PILLS-BURY'S BEST

Among the mercantile movements of the new year in La Crosse is a growing recognition of the merits of Pillsbury Best flour. Grocers note with interest the growing demand. The brand has not been pushed here, although it has always been in the market. There are a great many people in La Crosse who have used other flours because Pillsbury's Best formerly sold at 10 cents per sack more than any other brand. Some time ago a cut was made, putting this celebrated flour on the same price level with all other brands sold in La Crosse, but as this fact was not advertised hundreds of homes went without it to save the difference in price. Pillsbury's Best can now be bought at any grocery in the city at exactly the same price charged for ordinary brands.

Thirty thousand barrels of Pillsbury's Best are manufactured and consumed every day, a fact that is convincing evidence of its merits, for people will not demand and continue to use a poor flour. The demand is due to the hard, selected spring wheat used, the testing of the flour and the discarding of any that fails to meet the test, so that it is always uniformly good; the scientific perfection of the milling.

A considerable increase in the output here is noted of late, with a corresponding decrease in the sales of other brands.

Judge Fruit left last night for Grant county to attend the funeral of his father.

## INTERESTING CASE FOR CHIROPRACTIC JURISPRUDENCE

Yesterday, a prospective lady patient entered the office of Johnson & Whipple, and seeing a gentleman sitting at a desk, she burst out:

"Why, do you office here, Judge? No? You must be sick then! Do you know, poor man, that I often wonder what a big, strong fellow like you wants to be sick for. Now I'm different, and anyway women have a right to be sick. Were you at the dance at what-you-may-call-it hall night I thought I didn't see you there. Now I just adore dancing. I suppose it's foolish but I'd rather dance than eat. I go to all the dances that are proper, and I always have a good time. I presume you are already getting ready for the next campaign? Do you know, I think it's just mean that we women can't vote and hold office. But there, I came up to see Dr. Johnson. I suppose your next. When does he come out?"

"I am Dr. Johnson," said the individual at the desk.

"Why, I thought you--"

"Yes, I know, but I am not Judge Hunt. However, you are not the only one, O dear no."

"Well, do you know, doctor," this average feminine conversationalist continued, "I have been having oceans of trouble; I'm just all shot to pieces. My--"

But just then the door closed, and the reporter drifted down the stairs.

## AUTO COMPANY TO HAVE "OWL" CARS

The Auto Rapid Transit company is planning to put on a system of "owl" cars in La Crosse as soon as the spring opens. After they are started the system will be kept going the year around, summer and winter alike. This according to the admission of one of the officers of the company today.

"We are at present working on our sales department end," said he, "and are getting ready to take prospective buyers to the Chicago show which opens on the afternoon of February

3 continuing until the 11th. Our plans are about ready but outside of the announcement that the parcel delivery, repair department and livery car system are ready to operate as soon as we can get the cars and the sales department is already established at 311 McMillan Building, I can only state further that our passenger projects are to be taken up as soon as the Chicago show is over.

"We are to take quite a number of people from La Crosse and vicinity to Chicago to pick out cars. They have the advantage of seeing every style and make of car there and it is a great deal more satisfactory for the buyer for he gets acquainted not only with his car but all makes and styles of automobiles."

## ANOTHER FIRM IN THE RANKS

The firm of Alexander & Verkins, the reputable horseshoers, have been using only goods sold by local jobbers so far as they have been able to get them, their attention having been drawn to the rubber pads which are being made at the La Crosse Rubber Mills Co., and after carefully examining them find they are equally as good and superior to most other pads used in La Crosse. Our macadamized streets and brick pavements necessitate looking up something that will take the jar off the horses' feet and at the same time prevent slipping. Nothing is better adapted than a good rubber pad, and as they believe in patronizing home industry, they will use La Crosse-made rubber pads this coming summer.

## This Makes 'em Sit Up.

Albion, Mich., Jan. 20. — Jacob A. Riis, the noted New York lecturer, friend of President Roosevelt and ardent reformer, made this statement in the home town of Michigan's leading Prohibitionist: "Only a small percentage of poverty is due to drunkenness." This shot came soon after Riis had been introduced by Dr. Samuel Riddle, president of Albion college and recently chairman of the national Prohibition party, who has preached in every state in the Union that the saloon is the great cause of poverty.

Riis continued: "I sometimes think that drunkenness is due to poverty." Then looking directly at the gallery filled with co-eds he said: "One-half of the drunkenness is the result of bad cooking. The wives in the homes cannot compete with the free lunch offered at the saloon. When comes the day that we have good cooking, then Carrie Nation and the other cranks can put up their little hatchets."

## Can't Take Out Their Tickers

Cincinnati, Jan. 20.—The injunction secured some weeks ago restraining the Western Union Telegraph company from removing the stock exchange tickers from the offices of W. J. Odell & Co. has been dissolved by the circuit court, to which the case had been carried on appeal from the common pleas court.

The petition of the Odell company to make the injunction permanent was dismissed on the reasoning and authority, says the court, of the case of the Chicago Board of Trade against the Christie Grain and Stock company. Arrest of judgment was asked that the case may be carried to the Ohio supreme court.

Homer C. Clark, law partner of Attorney General Sturdevant of Neillsville, was here yesterday in the interests of Judge O'Neill's candidacy for the supreme bench.

# Strikers Win a Victory

St. Paul, Jan. 20.—The Typographical union of St. Paul has won its first decisive victory over the Typothetae in the strike for an eight-hour day and closed shop which was inaugurated Jan. 1. The legislature authorized the state code commission to have the codified laws of the state compiled and ready for delivery March 1. The contract for the printing was let to the Pioneer Press Printing company.

# MOTHERS AGREE TO SPARE THE ROD

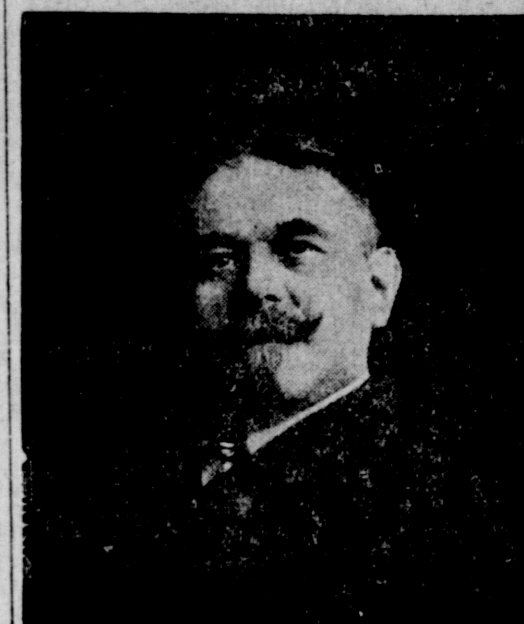

Lafayette, Ind., Jan. 20.—West Lafayette mothers have decreed that the whipping strap must go. At a meeting of the Mothers' club, held at the home of Mrs. W. C. Latta, wife of Professor Latta, of Purdue university, a spirited discussion of the question of bringing up children resulted in the decision that the strap or whip has no place in the home.

A discussion which resulted in the decision not to whip children from this time forward was led by Mrs. M. F. Hale who read a paper on "The Adolescent Period of Children." She advocated the argument that corporal punishment is only remedial where it is used to tame the object of punishment into submission, and that it angers a child, and therefore does not check waywardness or stubbornness. She said that moral suasion was the only true form of discipline.
